

# STRANDED - WE ARE/AGAIN

## PRESS RELEASE

About one year after the release of their debut EP "We are", the garage punks from Stranded are following up with their sophomore EP "Again". "Again" picks up seamlessly where "We are" left off and expands the musical spectrum of the Cologne based band without losing any of its uncompromisingness and intensity.

Both EPs are now available in a limited edition on black vinyl with a high-quality double cover for each EP.

The sound of early Californian hardcore and punk bands such as Black Flag and Germs blends with reverb-soaked surf guitars and repetitive Krautrock rhythms. Stranded blends all these elements just like the early punk bands - unconstrained by strict genre boundaries.

Lyrically, they dissect the big and small, the artificial and real challenges of our time. And their critical diagnosis does not shy away from starting with themselves and questioning their own way of life.

The vinyl of the double EP "We Are" and "Again" is brought to you by the Cologne based label Mörstel Sounds and the publishing house Verlag von Wegen. Interceptor Editions from Leipzig is releasing "Again" as a music cassette.

FFO: Black Flag, Hot Snakes, Dead Kennedys, Neu!

**Release:** 24th November 2023
